Putting service  
back into merchant  
services

# SIMPLE } SOLUTIONS. PRICING. BETTER.

Large out-of-town banks and big tech companies do not understand the challenges facing local businesses every day. But Hometown does. We're a local company serving local businesses with advanced merchant services that are more affordable, more customizable, and with customer service that's more responsive.

So whether you are a bakery or gift shop. Restaurant or auto shop. One location or multiple locations. Brick and mortar or ecommerce. We have everything you need to run your business more smoothly and more profitably - from payment processing and invoicing to inventory tracking. And if you need a service call, we can often be there within 24 hours.

## Merchant services created with small businesses in mind.

Hometown is not some Silicon Valley tech company offering merchant services. They are a local business helping other local businesses.

## Seamless, touchless, frictionless transactions have come of age.

Today, consumers are gaining access to an increasing number of digital payment options - both in and out of the physical store - and opting for touchless, frictionless shopping experiences.

Hometown can help you meet the expectations of today's new generation of shoppers with the most advanced and easy-to-use in-store and mobile point-of-sale solutions.

Best of all, we can integrate with most existing systems, or customize a new system to fit your business and your budget.

When a power surge knocked out my POS system, Hometown was there to get me up and running again in no time

## YOU HANDLE THE BUSINESS. WE'LL HANDLE THE PAYMENTS.

We help you accept payments from your customers in-person, online, in-app, over the phone, or by invoice. With Hometown, it's never one-solution-fits-all. We learn your business and customize a solution that streamlines your operations and lowers your payment processing costs. All designed to free you from the hassles of merchant services, so you can concentrate on what you do best. Running your business.

## Customizable Payment Processing To Help Your Business Grow

- EMV Payment Processing Terminal (including contactless)
- Point of Sale Systems
- Mobile Payment Processing
- Online Payment Integration

## Payment Processing with Swipe or Chip Cards

Give your customers the flexibility and convenience to pay quickly and securely with swipe or EMV chip cards. You get paid quickly with low or no processing fees. And our card readers can operate as stand-alone units or integrated with your software and hardware.

## The Latest in Contactless Payments

Digital Wallet options such as Apple Pay® and Google Pay™ are not only growing in popularity, they are transforming payment processing. Now, more than ever, being app-friendly means being customer-friendly.

## Let Your Customers Pay Remotely

Do you take orders via phone, or are you planning to? Hometown can configure a system that allows cards to be keyed in by your staff so your customers can pay remotely. A good solution for curbside pickups at restaurants and other retail stores.

## Mobile Solutions For Service-Based Businesses

We can provide your in-field technicians or sales teams with an easy and affordable way of accepting mobile payments onsite. A must have for any service-based business such as electricians, plumbers, HVAC, and food delivery services.
